BOSTON, *April* 23.

THE Great and General Court have in their present Session made Provision for raising 2500 Men by Inlistments for the general Service of the Year, over and above the 5000 already raised: And as an Encouragement to Gool Men to inlist, have granted a Bounty of Fourteen Pounds lawful Money to each Man. They are likewise to be furnished with Blankets and other Necessaries, but in the same manner as the other 5000 Men. And the Officers who shall be appointed to raise these are to receive a Dollar for each Man they shall inlist.

And on Wednesday last the two Houses presented the following Message to his Excellency the Governor, viz.

May it please your Excellency,

THE General Reasons and Motives which your Excellency has from Time to Time laid before the two Houses in order to induce an Augmentation of the Forces for the Service of the present Year, have been maturely weighed and considered by us.

We have likewise had an Opportunity in the Recess of the Court, of acquainting ourselves with the State of the several Parts of the Province, and the Ability for raising an additional Number of Men. We are convinced that the Circumstances and Ease of the People has been considered by your Excellency, in reducing the last Levy, as far as could consist with his Majesty's Service; and the Inducements for raising the Men are raised. The Difficulties brought upon the Inhabitants several Years successively great. The Number of Men raised this Year, we are sensible, is not equal to that of the last. That Assembly made the greatest Effort that has ever been known in the Province. They looked upon it to be the last Effort; they had no Expectations that it could be repeated, and it was really so great as to render it impracticable for us to make the like a second Time. The Number of our Inhabitants is since then much lessened: Some were killed in Battle; many died by Sickness while they were in Service, & soon after their Return. Besides a great Number have inlisted, as Rangers, Artificers, Recruits in his Majesty's Regular Forces, and for other Branches of the Service.

The unprecedented Charges of the last Year also tends to increase the Distress of the Province. The Expence of the Regiments raised for his Majesty's Service amounted to near One Hundred and Twenty Thousand Pounds Sterling: Besides this, the Inhabitants of the several Towns in the Province, by Fines, or by voluntary Contributions to procure Men for the Service, paid at least Sixty Thousand Pounds sterling more; which is in all Respects as burdensome as if it had been raised as a Tax by the Government. The Defence of our own Frontiers, and the other ordinary Charges of Government amounted to at least Eighty Thousand Pounds Sterling more.

Because the Province the last Year raised 7000 Men, it is objected, that it is able to raise the same Number this, and no Allowance is made for it's being so much reduced in it's Estate and Number of Inhabitants.

We have generally been the first in Proposals for publick Service, and been determined what Force we would employ. Other Governments have followed after us as they were Proportion they should, and we think it had been on equal Case. We are now pressed, and they are exempted; and we are not assured to procure the same Proportion.—We have always chose to avoid entering into the Consideration of Quotas & Proportions, but we seem now obliged to do it.—We conceive that in order to ascertain a just Proportion, the Wealth, the Number of Inhabitants, and the Charges of each Government for it's immediate Defence, are all to come under Consideration. If this be allowed to be a just Rule to determine by, we are sure that not only in all past Years, but in this present Year also, we have done more in Proportion to the general Service, than any one Government upon the Continent.

We know of no Quota settled for each Colony. The Agreement made at Albany by the Commissioners in the Year 1754 has been generally urged as a Rule of Proportion since that Time. But it was agreed by the same Commissioners, that Regard should always be had to the special Services of any Colony for it's immediate Defence. We are obliged to keep 600 Men in Pay for the Defence of our Frontiers and Sea Coasts: The Charge some of the other Governments are wholly free from, and the rest subject to in very small Degree. Exclusive of the 600 Men aforesaid we have already raised 5000 Men for the general Service. Connecticut have raised in Proportion to the 5000 only according to the Albany Plan, without any regard to the 600.—Every other Government falls short even of that.—So that we have this Year already done more in Proportion than any of our Neighbours. We are told that we are the leading Province. We have been so for many Years past, and we have been so long unequally burdened. We have borne it patiently, although we have seen our Inhabitants leaving us, and removing to other Governments to live more free from Taxes; and a few Years ago, for this Reason alone four of our principal Towns refused any longer to submit to our Jurisdiction, and another Government found a Presence for receiving them, and they are not yet returned to us.

Under these Difficulties we are still willing to afford every reasonable Aid in our Power. A further Payment would distress and discourage the People to such a Degree, that as well as Faithfulness to the Service, as to the particular Interest of this Province, we are bound to declare it. Burdens on our Borders are, we have now supposed a Bounty more than double what has ever yet been given by the Province in order to procure a voluntary Inlistment of Fifteen Hundred Men over and above the 5000 already raised: And we have Reason to hope that this Bounty will be sufficient and have the Effect which your Excellency Desires.

CHARLES-TOWN *(in South-Carolina) April* 14.

THE Expresss which arrived in Town last Sunday Evening from the Cherokees, brought Advice of the Little-Carpenter's Return to his Country, and that he dish gave them to assist his being distressed near Fort Duquesne: And we learn, that he may be expected here in a few Days.

We hear, that a Nation of Indians residing in Louisiana, called the Stinking-Lingo, being heartily tired of their old Masters, have actually desired Leave to remove under the Protection of our Friend Indians in the Creek or Chickesaw Country.

We likewise hear, that the Chactaws are tired of their French Masters, and anxious to quit their Service; And that 30 of their Headmen have been some Time in the Wolf King's Town, to make some Proposals favourable to our Trade and Interests in this present Conjuncture.

On the other Hand, the Arrival of a French Boat with Brandy, &c. at the Alabama Fort, in February last, had stopped a Number of the Creeks in repair thither for Presents, &c.

We do not hear of any additional Reinforcement intended to be sent to our Posts in the Cherokees.

And with Regard to the two Parties of that Nation that lately went out towards the French Fort, we the only enquiries our Readers, that one of them, consisting of Thirty boys, consisting of 23 Indians, with whom 3 white Men are gone, lost by Capt. Demere, no Advices having been received from them since they set off.

April 21. Last Monday arrived here the Snow William, Captain James Jolliff, from Cadiz in 8 Weeks. He brings a Confirmation of the Death of Ferdinand VI. King of Spain, which he says was concealed, as kept secret, for some Time: And adds, that when he left Cadiz, upwards of 50 Spanish Men of War were fitting out, with all possible Dispatch, to bring from the Streights to that Crown from Naples, who, it was reported, had been refused a Passage thro' the Dominions of France.

The Little-Carpenter came down on Monday last, accompanied by several Headmen and Warriors, and other Cherokee Indians, to the Number in all of 30 odd, and has had three Audiences of his Excellency the Governor in Council, since his Arrival, in which he has taken great Pains to remove the ill Consequence of his Conduct near Fort Duquesne, in deserting General Forbes before he took Possession of that Place; and given the strongest Assurances of his unshaken Fidelity and inviolable Attachment to the English. He brought a Scalp to his Excellency, which he had taken while with the General. And we hear, that on his Arrival at Keowee, in the lower Cherokee Nation, he sent a Letter to Virginia, to the Lieutenant-Governor of that Province, in which he promised to use his utmost Endeavours to prevent his Countrymen from committing any more Outrages against the white People there.

About 70 Catawba Indians are come down, with King Hagler at their Heads; and Yesterday the King, with some of his Chiefs, had an Audience of the Governor in Council.

On Friday Night, the 13th Instant, one James Allen, who had lately been Overseer on several Gentlemens Plantations about Abbey-River, came to one of Mr. Thomas Fuller's, upon the Santee Road, where lived a poor industrious Dutch Family, of the Name of Peters, consisting of an old Woman, a young Man, her Son, and her Daughter, a Girl; and after having been in the House a little While, called young Peters out, pretending he wanted to speak with him, and run him through the Body with a Cutlash he had stolen: The Noise occasioned thereby brought out the old Woman, whom Allen next attacked, gave her three desperate Cuts in the Head, one on the Shoulder, and another on the Arm, and the Daughter coming to assist her, received, also 4 Wounds on the Side of her Face: While this was transacting, Peters got up, ran into the House, took up his Gun, and shot the detestable Villain in the back Part of his Neck, so that he dropped down instantly: In this Condition they all lay bleeding 'till next Morning, when the Girl went to the nearest Plantation, related this sad Catastrophe, and got some Assistance to relieve her Mother and Brother, and secure Allen. The Villain was accordingly secured, brought to Town on Saturday Night, and committed to Gaol; but died next Morning.—Mrs. Peters, tho' a Piece of her Skull was cut away, and her Son and Daughter, we hear are likely to do well.

ST. JAGO DE LA VEGA *(in Jamaica) Feb.* 10.

By a Gentleman arrived on Monday last from Carthagena, we are informed, that on Sunday fe'nnight, Capt. Peter Grignion, Commander of a Privateer Sloop of St. Kitts (Consort of the Thetis, Capt. Mantle) coming out of Carthagena Harbour, discovered a French Privateer Schooner standing in, whereon Grignion sending the Harbour-pilot between the Schooner and Town, when an Engagement ensued, in Sight of the Fort, and 'tis said that three of the Schooner's Balls pierced the Governor and other Gentlemen, who happening then to be near the Fort, were viewing the Engagement. The Fort was then ordered to fire upon the English Privateer, which it did, 36 Shot, without Effect, Grignion having boarded and taken the Schooner, and returned a few Minutes after with her Prize from the Fort.

During the above Engagement, the Commander of a French Privateer Sloop (who had been beating up for Volunteers at Coracoa, and had shipped near an Hundred stout Fellows, Dutch free Negroes included) applied to the Governour for Leave to go out against the English Privateers, which, with some Difficulty, having obtained, a Number of new Volunteers immediately jumped on board. The Frenchman with all Expedition sailed out, whom Grignion perceiving, sent his Prize away, and (though he had but fifty Hands left) waited for this formidable Antagonist, who coming up close, endeavoured several Times to board him, but in vain. Grignion's Sloop sailing round the Frenchman with great Ease, and pouring in a Broadside and Volley of small Arms each Time. They then (at Three o'Clock in the Afternoon) came to close Engagement, and continued till Dusk, when they lay by to refit. The Fire in a little Time was renewed on both Sides with great Bravery, and continued until Twelve at Night, when they parted by Consent, and Grignion pursued his Voyage. During the Engagement Wagers of a Thousand Milled Dollars to an Hundred were laid against Grignion. The Frenchman returned next Day to Coracoa, being greatly damaged, and having a Number of Men miserably wounded and burnt, but would not own any killed, tho' many of the Volunteers were missing.

BOSTON, *May* 7.

Tuesday last Captain Freeman arrived here from Oporto in 6 Weeks, by whom we learn, That just before he sailed, they had received Advice of the Death of the King of Spain; and it was generally believed to be true by the Consul and the English Factory there.—They also had an Account, That the Packet from England to Lisbon in her Passage fell in with a Ship in great Distress, which proved to be a Frenchman, homeward bound, from the West Indies, supposed to be worth 20,000 l. Sterling. The Frenchman willingly submitted to be taken by the Packet, who carried her into Lisbon.—That the Jesuits who were confined to their Convent, on Suspicion of their being concerned in the late Conspiracy, to take away the Life of the King of Portugal, were sentenced to perpetual Banishment.

Saturday last Capt. Mason arrived at Marblehead from Louisburg, which he left the Tuesday before, and informs, that Admiral Saunders, with 12 Sail of the Line, and 28 Transports, were arrived there, and that a 50 Gun Ship, three Fire Ships, three 20 Gun Ships, and 12 Transports, were arrived at Halifax: Capt. Mason also informs, that the Transports arrived at Louisburg had Troops on board, but that those which arrived at Halifax were empty; and that he had brought Dispatches for his Excellency General Amherst.

CAMBRIDGE, *May* 21.

The Comet which appeared in the Beginning of April, passed its descending Node, and continued its Route southward, as we expected. It was then coming almost directly towards the Earth, and by its near Approach, its apparent Motion was very much accelerated; and thus in a short Time it ran so far to the southward, as not to rise above our Horizon. I saw it on the 19th, pretty low in the South, and low, being near the Middle of Aquarius, with about 35 Degrees South Lat. The two next Mornings very cloudy, and on the 22d, I could not find it. While it was invisible in these northern Latitudes, it passed thro' the southern Constellations, to above 50 Degrees South Lat. according to my Computation; and all this Time was to be seen in the Southern Countries, where it must have appeared larger than it had done to us. It was nearest the Earth on the 25th, and pursuing its Course, after it had passed by the Earth, it again rose above our Horizon; and on the 29th in the Evening, at Half an Hour after 8, it was very plain, being near the Meridian, and about 15 Degrees high. It was not so bright as before, but appeared bigger, and its Tail longer and broader;—occasioned by its being nearer the Earth, for it was much farther from the Sun. It was a little South of that Part of Hydra, which is under Crater; full in the End of Virgo, with about 36 Degrees South Lat. So that in the 10 Days when we could not see it, it had passed thro' four Signs and a Half, viz. Half of Aquarius, and the Whole of Capricorn, Sagittarius, Scorpio, and Libra. Its Course is N. W. But as it is departing now from the Earth as well as from the Sun, its Motion will become slower continually, and it will grow smaller and dimmer till it disappears.

It may probably be thought a Difficulty by some, that this Comet should be all this While pursuing the same Course, that is, that it moved southward, and then southward; but the Difficulty will vanish upon reflecting, that Northward and Southward are relative Terms, and are used with Reference to Poles.—While the Comet was going nearer the south Pole, it moved southward; but after it had passed its nearest Distance thereto, in continuing to move in the same Direction, it carried it farther from that Pole. Now to move farther from the South Pole, is to move northward. J. W.

WILLIAMSBURG, *May* 21.

The Everton, Capt. Thomas Kelly, is arrived from Liverpool in York River, and has brought in with him a Dutchman, laden with French Sugars, Indico, &c.

NEW-YORK, *May* 14.

Friday Morning last arrived here, a large French Prize Sloop, taken the 16th of March last, about five Leagues from Coracoa, by the Privateers True Briton, and Duke of Marlborough, the Captains Matterson, and Fenton, both of this Port. She carried a Letter of Marque, is called the Enterprize, of 124 Tons Burthen, was from Martinico, bound to Caracoa, mounted 12 Guns, and had 58 Men, and engaged Captain Matterson two Hours, the Duke of Marlborough not being able to get up to his Assistance. The Frenchman had several Men killed, and the True Briton some Men wounded. Her Cargo consists of 121 Hogsheads, 36 Tierces, and 13 Barrels, of Sugar; 13 Bales of Cotton; 30 Hogsheads, and 300 Bags of Coffee; together with 83 Bags of Cocoa; consequently esteemed a rich Prize.

Monday last the following Transports sailed for Halifax, under Convoy of the Trent Frigate, &c. viz. Prince of Wales, Brotherly Love, Bernard the 2d, Fell, George, Hero, Hopewell 3d, John and Jane, Ranger, Edin and Mary, Fortunate Industry, and Mary 5th.

The Diana Frigate, Capt. Schomberg, sailed for Louisburg since our last, as Convoy to the following Transports with Troops on board, viz. Fortitude, Laurell, Harwood, Antelope, Blacker and Kitty.

The following are Provision Vessels, which are to sail under Convoy, viz. King Frederick, Bernard, James and Mary, Unanimity, Venus, Crown, Mary, Elizabeth and Anne, Richard, Hannah, and Venus 2d.

Besides which, Nine Transports are gone to Boston from hence, Five to Rhode Island, and Seven to Casco Bay; thence to join the Fleet at Louisburg with all possible Dispatch, after taking Troops on board at each of the Places. Several are left behind here to refit, as is his Majesty's Ship Sea Horse.

On Saturday last embarked for Albany, Brigadier General Prideaux.

Major Meyer embarked on board the Diana Frigate for Louisburg.

Lord John Murray's Regiment of Highlanders, which Winter Quarters have been in this City, embarked for Albany on Wednesday last. And,

The last Division of General Amherst's Army (Regulars) are expected to pass this City To-day for Albany; they embarked at Elizabeth Town Point.

Extract of a Letter from Albany, dated May 4.

"There lately appeared a Party of French and Indians at Fort Edward, or Queen Charlotte, with a small Party of Rangers, rushed out, but being too few in Comparison to the Enemy, were obliged to return back to the Fort with all Speed, and all got in safe except John Tiebout and another, who were killed: Tiebout was not Scalped, but soon after brought back, and was properly interred."

"Letters from Albany, per Yesterday's Post, inform us, that one of our Men was a few Days past, scalped near one of the Forts between Albany and Fort Edward."

With Regard to the 40 Sail of Dutchmen under Convoy of 2 Dutch and a French Man of War, mentioned under the Philadelphia Head, a Report prevails in New-York, That the Advice Vessel arrived at Barbados, had Orders for Commodore Moore to keep a strict Look-out for the Fleet of Dutchmen, and do his utmost to obstruct their Attempts from getting into French Ports, by attacking them wherever he met them.

PHILADELPHIA, *May* 17.

By a Gentleman from Barbados we have the following *Extract of a Letter from Christiansted dated April* 14, 1759.

"Every Thing now wears a more pleasing Aspect than before; the General is beloved, new Life seems to recover last; the Militia are every where in Action; and Encouragement given for good Behaviour, neither are they so much fatigued as formerly, and therefore do not fall sick. Disorder, nor the Recovered Negroes, are the 4th Thing that was done after General Barrington took the Command, and I dare say, was the taking and destroying St. Anne's, where was a Battery of 7 Guns they burst down the Town, and House and Work near it; they did the same at St. Francois, where was a small Battery and three removed. Where the two Roads divide, 400 Men were sent under Command of a Reverend Colonel to Gosier, where was a one Gun Battery, almost a Mile above Fort Louis. They got above, drove the Enemy from their Trenches, took the Battery, and two small Pieces of Cannon more; these they marched back to Fort Louis, and as they returned, they came upon a Marked Battery of three Guns, which the French had, with immense Labour, erected without our perceiving it, and to amazed, that it would have destroyed most of our Troops in Camp, if not it would have done much Execution. The fortunate Part was, that we came upon it, just as they were unmasking it; the Guns were all primed, loaded with Langrel, and pointed towards the Head Quarters, and would have been back to play. There were only 100 Men in this Battery.

"The 12th, a Scheme was laid, and put in Execution with 1700 Men, under Command of General Clavering, to attack the Village of Petit Bourg on the Grande Cabaret Side; they failed in the Attack on the Woodside, and found the Attack in the Bay; but the Woods not being safe to go through the Battery, the Soldiers attacked it in the Bay in their Trenches, carried them with little Loss, with six Pieces of Cannon, and about 40 Prisoners; many of them Principal People; there were 114 Men killed, and 60 wounded; only 20 of the Slain were Regulars, the rest Militia. Yesterday they marched out to attack a Post of the Enemy's, with a View to Pirre, and finding they could not get to it, they attacked a Number of Canoes, that passed the River in the Face of the Enemy, who sent down a great Body of Troops, relieved the Works, and drove them off with a smart Fire from their Cannon and small Arms. Our Troops, retired the Works, and drove them off with a smart Fire from their Cannon and small Arms. Our Troops, retired the Works, spiked the Cannon, and brought them, and took the Pieces of Cannon, and did not lose any Men. We are now in Possession of the Fort at Basseterre, the Fort at Gosier, the Fort at Petit Bourg, the Fort at Goyave, the Fort at Trois Rivieres, the Fort at Goyave, the Fort at Trois Rivieres, so that Part of Grande Terre is in our Possession. To-morrow Night, and the Day after, we intend to attack a Place called Berbasse, and the Day after another very strong Place, when that is taken, will have Command of the whole Island, as they actually believed that if we got Basseterre, Fort Louis, Trois Rivieres, and Petit Bourg, Barrington would be Master of Guadaloupe. Barrington is said to be ill on Board, but that does not prevent him from carrying on the Service, for he has the Satisfaction to see the Generals, Officers and Men carry on all their Operations. The Fort at Basseterre has been mounted by the Enemy, the noblest very beautiful, not a Shot fired from it except that one Volley which killed one, and wounded Fifteen of Cadbol the Enemy had mounted on the Fort."

Extract of a Letter from Barbados, April 30.

"By an Express which arrived here a few Days ago, in 23 Days from Spithead, there is an Account of forty odd Sail of French Vessels, some of them Store Ships, having sailed for St. Domingo, under Convoy of three Men of War, and a Number of armed Vessels called Xebecks. That the Duke of Choiseul, the French Minister, had declared to the Two Spanish Ministers, that if they refused to join with France in declaring War against England to have an Admiral or Admirals employed in paying a Visit to the King of Spain before his Death, Admiral Boscawen was accordingly charged with him: That on the Death of his Spanish Majesty, it was expected War would be declared between Spain and Sardinia against the French, and the Dutch War was likewise expected. That the King of Prussia had got up Count Dohna's Army to Madgeburg, that he would soon endeavour to fight his Way through: That Captain Tyrrel, who arrived in England, and was most graciously received by his Majesty, and was pleased to order his Head, and as he was endeavouring to get his Right Hand pulled (which was wounded) out of a Hole, the King desired him to give him the other, as his Right Hand was lost, for gallantly fighting in his Service, and for the Good of his Country."

Another Letter from Barbados mentions, that Tyrrel's Vessel is actually arrived there, with Advice of 14 Sail of Men of War, and 40 Transports, with 6000 Land Forces, and Provisions, Stores, &c. on board, under Convoy of Admiral Rodney, who was to meet with Admiral Boscawen off Cape St. Vincent, with the two French Ships of the Line, and 40 Sail of Dutch prisoners, which Boscawen had taken.

We have from Jamaica, that Admiral Holmes, with the Penzance, Augusta, Guinea, and Vulture Sloop of War, (who escorted Colonel Clavering to Port Antonio) were to sail from Port Royal the 20th of April, with the Troops on board the Transports, and were to rendezvous at Cape Tiburon, from whence they were to proceed to the Leeward Islands.

This Advice was received by the Way of Boston, and dispersed [illegible]

We hear that a Vessel arrived last Friday at *Philadelphia*, after a short Passage from *Antigua*, with the agreeable News of the Surrender of *Guadaloupe* to his Majesty's Obedience. The following MS Copy is handed to us, and said to be the Chief Articles of the Capitulation, viz.

"The Inhabitants are to be assured, and remain perfectly Neuter during the War; and at the Peace, if the Island is ceded to *Great-Britain*, they are to enjoy all the Privileges of the rest of the *British* Islands. We are to be put in Possession of all the Forts, Batteries, &c. and are to establish Garrisons and build Barracks, wherever we find it necessary for the Security and Protection of our new Conquest. All the Produce of the Island is to be shipped to *England* in *British* Bottoms, and they are to have no Commerce with any other Nation. They are to pay the same Duties to the King of *England* as are paid to his *Britannic* Majesty, and all public Acts are to be in the Name of his *Britannic* Majesty, and all public Officers appointed by him. The Inhabitants are to enjoy the free and public Exercise of their Religion, Laws, Customs, &c. And no Strangers are to be allowed to possess any Houses or Land, by Purchase, Grant, or otherwise, till the Peace."

"ST. JOHN'S (in ANTIGUA) *May* 5.

"Arrived the Schooner *Cheap* from *Prince Rupert's Bay*, *Nathaniel Murphy*, Commander, where he left Commodore *Moore*, with 14 Ships of the Line, Two of Forty, and Three Frigates. He had Intelligence from on board the Commodore, that Monsieur *Bompar* had got out of *Port-Royal*, with 9 Sail of the Line, 5 Frigates, and 19 Privateers, and had landed 700 Men on the Eastern-end of *Grenada*, where, after being repulsed by our Forces, they were obliged to embark with great Precipitation, with the Loss of 10 Men taken Prisoners, one of whom was a *Swiss*, who is now on board the Commodore; and that after landing the Men, Monsr. *Bompar* left the Island of *Grenada*, steering to Windward of *Dominica*; but on Tuesday last Mr. *Murphy* espied at 12 o'Clock at Night, a very large Ship off the Island of *Martinico*, with all her Top-lights, which he judged to be Monsieur *Bompar*, as the Commodore informed him we had no Cruizing Ships out, except the *Antigua*.

"By a Vessel which arrived the 8th Instant, came a Gentleman who had been a Prisoner amongst the *French* at *Guadaloupe* 5 Weeks), at the *Disaster*. We are informed, that on Tuesday the 2d, there were three flat-bottom'd Boats, loaded with *French* Roman Catholicks, embarked on board two Transport Ships that lay at *Basseterre*, in order to be sent to *Martinico*. Those were such that would not take the Oaths of Allegiance to his *Britannic* Majesty; and these will be many more transported to the same Place, for the same Reason."

WHEREAS there is a Vacancy for a Master in *Queen-Anne's* County School: Any Person properly Qualified, applying to the Visitors of said School, will meet with as much Encouragement as the Law relating to Free-Schools will support them in. Signed *per* Order,

NATHAN WRIGHT, Register.

RAN away from *Dumfries* on *Potowmack* River, *Virginia*, in *March* last, a Mulatto Man Slave, named *Dick* (tho' it is probable he may now assume another) Country-born, about 35 Years of Age, a well-made slim Fellow, very active, is much addicted to Liquor, and when drunk, stammers in his Speech. Had on a good dark Bearskin Frock-Coat, and Cotton Breeches; but carried with him several other Cloaths. He is by Trade a compleat Wheelwright, and so much of a Smith, as to make the Nails, and shoe those he makes. He is likewise a good Cooper, Sawyer, and House-Carpenter, and has also been employed in small Craft by Water. Mr. *Fox* of *Fredericksburg*, was formerly his Master, and as he has lived in that Town, and other public Places, most Part of his Life, has contracted a pretty general Acquaintance, and may by that Means be conveyed out of this Colony. He has been seen on board several Vessels in *Rappahannock* River, and on board of a Schooner bound to *New-York*; but on being detected as a Runaway, he got clear, by swimming on Shore from the Vessel in *Rappahannock*. He has been outlawed, by which any Person may lawfully kill him. I am informed he goes by the Name of *Jack Hampton*; and has a forg'd Pass, pretending he has served on a Man of War 21 Years, agreeable to the Laws of this Colony. It is hoped all Captains of Ships or Commanders of Craft, will be cautious how they entertain so notorious a Villain; for when he is drunk, he will steal any Thing.

Whoever apprehends him, so that he may be secured in some Goal, and conveys me Notice of it, shall receive Forty Shillings; and if brought to me at *Dumfries*, a full Reward for their Trouble, and all reasonable Charges.

ALLAN MACRAE.
